NIEM 4.1 Migration Changes

- Updated all URLs and import statements in schemas and instance documents to current version of NIEM, version 4.1
- Migrated schema subset to 4.0 via migration tools

- Recreated schema subset by hand in 4.1 due to tool limitations
- Replaced `nc:LocationStateFIPS5-2AlphaCode` with `nc:LocationStateUSPostalServiceCode` as FIPS 5-2 has been deprecated
- Added `nc:LocationState` object around `nc:LocationStateUSPostalServiceCode`
- Replaced `nc:LocationCountryFIPS10-4Code` with `nc:LocationCountryISO3166Alpha2Code` as FIPS 10-4 has been deprecated
- Changed sample instance documents to match the above changes

Instance Documents

- Changed all "cyfs" prefixes to "hs" to match current version of NIEM
- Changed element names and enumerations to match the typo fixes below
- Added all new elements to at least one instance document
- Created Home Study Request instances with the minimal set of elements, and a maximal set of elements, for both reg 1 and reg 2.

Schema Subset

Set the nillability of this to `false`:

- `nc:LocationStateUSPostalServiceCode`

Added the following to the subset:

- `hs:OrganizationCaseID`
- `hs:PersonAugmentation`
- `hs:PersonGenderIdentityAbstract`
- `hs:PersonGenderIdentityCode`
- `hs:PersonGenderIdentityText`
- `hs:RelatedCase` (with `hs:RelatedCaseType` and `nc:CaseType`)
- `j:PersonEthnicityCodeType`
- `nc:CountryRepresentation`
- `nc:DateRange`
- `nc:PersonAugmentationPoint`

Removed the following from the subset:

- `hs:PlacementCategoryCode`
- `hs:PlacementChangeReasonAbstract`

- `hs:PersonGenderIdentityText`

Removed the following unused substitution group heads:

- `nc:ActivityAugmentationPoint`
- `nc:ActivityDocumentAssociationAugmentationPoint`
- `nc:ActivityInvolvementAbstract`
- `nc:ActivityOrganizationAssociationAugmentationPoint`
- `nc:ActivityPersonAssociationAugmentationPoint`
- `nc:AddressDeliveryPointAbstract`
- `nc:AssociationAugmentationPoint`
- `nc:BinaryCategoryAbstract`
- `nc:CaseDispositionDecisionAugmentationPoint`
- `nc>ContactInformationAugmentationPoint`
- `nc:DateAugmentationPoint`
- `nc:DateRangeAugmentationPoint`
- `nc:DispositionCategoryAbstract`
- `nc:DocumentAugmentationPoint`
- `nc:IdentificationCategoryAbstract`
- `nc:IdentityAugmentationPoint`
- `nc:InstantMessengerAugmentationPoint`
- `nc:MeasureUnitAbstract`
- `nc:MeasureValueListAbstract`
- `nc:OrganizationAugmentationPoint`
- `nc:OrganizationLocationAssociationAugmentationPoint`
- `nc:PersonLocationAssociationAugmentationPoint`
- `nc>StatusAugmentationPoint`
- `j:ActivityLocationAssociationAugmentationPoint`
- `j:CaseLinkageAugmentationPoint`
- `hs:AssociatedPersonChildAssociationAugmentationPoint`
- `hs:JuvenileAugmentationPoint`
- `hs:JuvenilePlacementAugmentationPoint`
- `hs:LevelOfCareCategoryAbstract`

- `hs:ParentChildAssociationAugmentationPoint`
 - `hs:PersonAssociationCategoryAbstract`
 - `hs:PlacementChangeReasonAbstract`
 - `scr:DocumentOrganizationAssociationAugmentationPoint`
-

Schema: `neice_codes.xsd`

Changed/Added Enumerations

These are changes to the enumerations themselves and will impact existing implementations.

- Changed enumeration `ChildReachedMajorityEmanicipated` to `ChildReachedMajorityEmancipated` in `cb_code:PlacementTerminationReasonCodeSimpleType`
- Changed enumerations in `cb_ext:NEICEDocumentCodeSimpleType`:
 - Changed enumeration `FinacialMedicalPlan` to `FinancialMedicalPlan`
 - Batch replaced enumerations with provided official list
 - Added enumeration `CaseManagersStatement`
- Added enumeration `NEICECMSMCMS` with definition "NEICE CMS/MCMS application" to `NEICEDocument100aAttachmentItemCodeSimpleType`
- Replaced the modified `hs` code table `cb_code:PlacementLocationCodeSimpleType` with one having the exact values in Form 100A, with spaces removed, using CamelCasing to delineate words
- Modified `cb_code:ReportPeriodicityCodeSimpleType`:
 - Removed "UPON_REQUEST"
 - Added "MONTHLY"
- Changed enumerations of `cb_code:ChildIVEDeterminationTokenStatusCodeSimpleType` to:
 - Yes
 - No
 - Pending
- Changed enumerations of `cb_code:ChildICWAEligibilityCodeSimpleType` to:
 - Yes
 - No
 - Pending
- Removed spaces from enumeration values, converting to CamelCasing where needed in:
 - `cb_code:DispositionReasonCodeSimpleType`

- `cb_code:InitialReportRequestedCodeSimpleType`
- `cb_code:PlacementLocationCodeSimpleType`
- `cb_code:RelativePlacementResourcesCodeSimpleType`
- `cb_code:ViolationCategoryCodeSimpleType`
- Added enumerations to `cb_code:RelativePlacementResourcesCodeSimpleType`:
 - Agency
 - Organization
 - TreatmentFacility
 - NonRelative
- Changed enumerations in `cb_code:SupervisingServicesRequestCode`:
 - Changed `ReceivingAgencyArrangeSupervision` to `RequestReceivingStatetoArrangeSupervision`
 - Changed `OtherAgencytoSupervise` to `AnotherAgencyAgreedtoSupervise`
- Removed enumeration `COURT_ORDER` from `cb_code:TransmittalRequestCategoryCodeSimpleType`
- Changed enumeration from "RelativeNotParentRelationship" to "RelativeNotParent" in `cb_code:PlacementLocationCodeSimpleType`

Changed Element/Type Names

Changes to element names will impact existing implementations.

- Changed `cb_code:NEICEDocumentCodeSimpleTypeType` to `cd_code:NEICEDocumentCodeSimpleType`
- Changed element `cb_ext:IniitalHomeStudyRequestPacket` to `cb_ext:InitialHomeStudyRequestPacket`

New Types

- Added code table types for `ChildICWAEligibilityCode` via `cd_code:ChildICWAEligibilityCodeType` and `cd_code:ChildICWAEligibilityCodeSimpleType`
- Added code table types for `cd_code:ChildDIVEDeterminationStatusCodeType` and `cd_code:ChildDIVEDeterminationStatusCodeSimpleType` to replace `cd_code:ChildDIVEDeterminationStatusType` in the extension. Values are true/false/pending.
- Added code table types for `cd_code:InitialReportRequestedCodeSimpleType` and `cd_code:InitialReportRequestedCodeType`

- Added code table types `cd_code:PlacementLocationCodeType` and `cd_code:PlacementLocationCodeSimpleType`, based on `hs:PlacementLocationCodeType`, to add "Other" and "Independent Living" enumerations.
- Added code table types for `cd_code:DispositionReasonCodeType` and `cd_code:DispositionReasonCodeSimpleType`
- Added code table types for `cd_code:DispositionCodeType` and `cd_code:DispositionCodeSimpleType`

Changed Definitions

- Changed definition of enumeration `ChildReachedMajorityEmancipated` from "The child has reached the age of a major and is emancipated" to "The child has reached the age of majority and is emancipated".
 - Changed definition of `ChildMovedToOtherState` from "Chils is moved to another state" to "Child is moved to another state".
 - Changed definition of `AdoptionFinalizedInOtherState` from "Adoption has been finalized in an another state" to "Adoption has been finalized in another state"
 - Changed definition of enumeration `HOME_STUDY_UPDATE` from "A New Home Study Request" to "A New Home Study Update".
 - Added definitions for all enumerations in `cd_code:ReportPeriodicityCodeSimpleType`
-

Schema: `neice_extension.xsd`

New Elements

- Added `cb_ext:CaseViolation` and `cb_ext:CaseViolationType` (extending `nc:ActivityType`) with the following two new elements inside:
 - `cb_ext:ViolationStateCode` and `cb_code:ViolationStateCodeType`
 - `cb_ext:ViolationCategoryCode` and `cb_code:ViolationCategoryCodeType`
 - also inherits `nc:ActivityDate/nc:DateRange` from `nc:ActivityType`
- Added `cb_ext:CaseViolation` to `cb_ext:TransmittalSummaryInformationType`
- Added `cd_ext:InitialReportRequestedCode` to `cb_ext:NEICEDocument100aType`
- Added `cb_ext:PlacementCategoryCode` of type `cb_code:PlacementLocationCodeType`
- Added `cb_ext:ResourceStateIdentification` to `cb_ext:ResourceDetailType` so that all resources can have a state ID.
- Added `cb_ext:ChildICWAEligibilityCode` with supporting types in the code schema, replacing `cb_ext:ChildICWAEligibilityIndicator`

- Added `cb_ext:PersonEthnicityCode` of `j:PersonEthnicityCodeType`
- Added `cb_ext:CourtOrderType` (extending `nc:DocumentType`) containing the following new elements, and added samples to `NEICE_Placement_Withdrawn.xml`:
 - `cb_ext:CourtOrderComplianceDate`
 - `cb_ext:CourtOrderEnteredDate`
 - `cb_ext:CourtOrderReceivedDate`
 - `cb_ext:CourtOrderRenderedDate`
 - Court Order Number is a new element but is handled by the pre-existing element combination of `nc:DocumentIdentification/nc:IdentificationID`
- Added `cb_ext:TransmittalPrivateIndicator` inside `cb_ext:TransmittalSummaryInformationType` (**Later removed in favor of a small code table.**)
- Added `cb_ext:AdditionalElement` to `cb_ext:TransmittalSummaryInformationType` for key/value pairs
- Added `cb_ext:AdditionalElementType` containing the following new elements, and added samples to `NEICE_Placement_Withdrawn.xml`:
 - `cb_ext:ElementKeyText`
 - `cb_ext:ElementValueText`
- Added `cb_ext:DispositionCode`
- Added `cb_ext:DispositionReasonCode`
- Added `cb_ext:ProvisionalDecision` containing either of these objects:
 - `cb_ext:ProvisionalApproval`
 - `cb_ext:ProvisionalApprovalIndicator`
 - `cb_ext:ProvisionalDenial`
 - `cb_ext:ProvisionalDenialIndicator`
 - Both sub-objects can contain an `hs:Child` object used to point to the appropriate child.
- Converted `hs:RelativePlacementResourcesDescriptionText` to code table by:
 - Extending `hs:PlacementType` into `cb_ext:IntendedPlacementType` **Later removed with RelativePlacementResourcesCode added to the existing PlacementAugmentation**
 - Adding `cb_ext:RelativePlacementResourcesCode`
 - Adding `cb_code:RelativePlacementResourcesCodeType`
 - Adding `cb_code:RelativePlacementResourcesCodeSimpleType`

- Converted `nc:AssociationDescriptionText` to a code table by:
 - Adding `cb_code:PlacementResourceRelatedPersonAssociationCategoryCode`
 - Adding `cb_code:PlacementResourceRelatedPersonAssociationCategoryCodeType`
 - Adding `cb_code:PlacementResourceRelatedPersonAssociationCategoryCodeSimpleType`
 - Adding `cb_ext:PlacementResourceRelatedPersonAssociationType` extending `nc:PersonAssociationType`
 - Adding `cb_ext:PlacementResourceRelatedPersonAssociation` of new `cb_ext:PlacementResourceRelatedPersonAssociationType`
 - Adding `cb_code:PlacementResourceRelatedPersonCategoryCodeSimpleType`
 - Adding `cb_code:PlacementResourceRelatedPersonCategoryCodeType`
 - Adding `cb_ext:PlacementResourceRelatedPersonCategoryCode`
- Added `cb_ext:PlacementCategoryCodeOtherText` to `cb_ext:PlacementAugmentation`
- Added `cb_ext:ConcurrenceIndicator` as a boolean to `TransmittalSummaryInformationType`
- Converted `cb_ext:TransmittalPrivateIndicator` in `cb_ext:TransmittalSummaryInformationType` to a 2-choice code table inside Form 100A by:
 - Removing `cb_ext:TransmittalPrivateIndicator`
 - Creating `cb_code:PlacementPublicPrivateCategoryCodeSimpleType`
 - Creating `cb_code:PlacementPublicPrivateCategoryCodeType`
 - Creating `cb_ext:PlacementPublicPrivateCategoryCode`
 - Adding `cb_ext:PlacementPublicPrivateCategoryCode` to `cb_ext:NEICEDocument100aType`
- Added `cb_ext:ProspectiveAdoptiveFosterResource` of `cb_ext:ResourceDetailType` to `cb_ext:PlacementAugmentationType`
- Added `cb_ext:OtherCustodyRelationshipText` and `cb_ext:OtherCustodyDescriptionText` by:
 - Adding `cb_ext:OtherCustodyAugmentationType` extending `s:AugmentationType`
 - Adding `cb_ext:OtherCustodyAugmentation` of `cb_ext:OtherCustodyAugmentationType` with substitution head `hs:ChildLegalCustodyPartyAssociationAugmentationPoint` **Later renamed as simply CustodyAugmentationType and CustodyAugmentation**
- Added `nc:Date` to:
 - `cb_ext:ProvisionalApprovalType`
 - `cb_ext:ProvisionalDenialType`
- Added `cb_ext:RelatedCase` by:
 - Adding `cb_ext:RelatedCaseType` extending `hs:RelatedCase`

- Adding `cb_ext:CaseNEICEIdentification` to `cb_ext:RelatedCaseType`
 - Adding `cb_ext:SendingStateCaseIdentification` to `cb_ext:RelatedCaseType`
 - Adding `cb_ext:ReceivingStateCaseIdentification` to `cb_ext:RelatedCaseType`
 - Adding `cb_ext:CaseRelationshipDescriptionText` to `cb_ext:RelatedCaseType`
- Added the following to `cb_ext:TransmittalSummaryInformation`:
 - `cb_ext:UrgentRequestIndicator`
 - `cb_ext:UrgentRequestReasonCode` including adding:
 - `cb_code:UrgentRequestReasonCodeType`
 - `cb_code:UrgentRequestReasonCodeSimpleType`
 - `cb_ext:UrgentRequestReasonCodeOtherText`
 - `cb_ext:TransmittalPurposeCode` including adding:
 - `cb_code:TransmittalPurposeCodeType`
 - `cb_code:TransmittalPurposeCodeSimpleType`
 - `cb_ext:TransmittalPurposeCodeOtherText`
- Added `cb_ext:PlacementIVESubsidyCode` to replace `cb_ext:PlacementAdoptionIVESubsidyIndicator`, by adding:
 - `cb_code:PlacementIVESubsidyCodeType`
 - `cb_code:PlacementIVESubsidyCodeSimpleType` with enumerations
 - IVE
 - NonIVE
 - Pending
 - None
- Created `cb_ext:CaseStatusUpdate` by:
 - Creating `cb_code:CaseStatusUpdateCodeType` and `cb_code:CaseStatusUpdateCodeSimpleType` with the following enumerations:
 - MessageDeliveredToRecipientState
 - HomestudyRequestAcceptedForProcessing
 - HomestudyRequestAssignedtoCaseWorker
 - Other
 - Creating `cb_ext:CaseStatusUpdateCode` of `cb_code:CaseStatusUpdateCodeType`
 - Creating `cb_ext:CaseStatusUpdateCodeOtherText` of `nc:TextType`

- Creating `cb_ext:StatusUpdateEventDate` of `nc:DateTime`
- Creating `cb_ext:CaseStatusUpdateType` to hold the elements
- Creating `cb_ext:CaseStatusUpdate` and adding it to
`cb_exch:NEICETransmittalDocumentType`

NIEM NDR Required Changes

These are changes required for NDR conformance.

- Changed element `cb_ext:NEICEDocumentCodeOtherText` type from `xs:string` to `nc:TextType`.
(Not required by the NDR, but is unconventional.)
- Added base type for `cb_ext:ResourceDetailType` of `s:ObjectType`.
- Made element `cb_ext:DispositionEntityRoleText` globally defined. Added minimal definition.
- Made element `cb_ext:PlacementTerminatedIndicator` globally defined. Added minimal definition.

Changed Element/Type Names

These are typo fixes. Changing elements names will impact existing implementations.

- Changed element `cb_ext:DispostionEntityRoleText` to `cb_ext:DispositionEntityRoleText`
- Changed element `cb_ext:LocationEntityAssocationAugmentationPoint` to
`cb_ext:LocationEntityAssociationAugmentationPoint`
- Changed element `cb_ext:PlacementAdptionIndicator` to `cb_ext:PlacementAdoptionIndicator`

Structural Changes

- Modified `cb_ext:NEICEDocument100bType` to reorder properties into this order:
 1. `hs:Child`
 2. `cb_ext:PlacementResource`
 3. `cb_ext:InitialPlacement`
 4. `cb_ext:ChangePlacement`
- Moved placement category elements into `cb_ext:ResourceDetailType`:
 - `cb_ext:PlacementCategoryCode`
 - `cb_ext:PlacementCategoryCodeOtherText`
 - `hs:PlacementCategoryText`
- Moved `cb_ext:RelativePlacementResourcesCode` into `cb_ext:PlacementAugmentationType` including:
 - Changing the type of `cb_ext:IntendedPlacement` to `hs:PlacementType`

- Removing `cb_ext:IntendedPlacementType`
- Modified `cb_ext:OtherCustodyAugmentation` by:
 - Renaming `cb_ext:OtherCustodyAugmentation` to `cb_ext:CustodyAugmentation`
 - Renaming `cb_ext:OtherCustodyAugmentationType` to `cb_ext:CustodyAugmentationType`
 - Creating `cb_ext:RelativeCustodyRelationshipText` with definition "A description of the relationship to a relative custodian."
 - Adding `cb_ext:RelativeCustodyRelationshipText` to the renamed `cb_ext:CustodyAugmentationType`

Deleted Types

- Removed `cb_ext:ChildIVEDeterminationsStatusType` in favor of a code table in the codes schema.

Nillability

Set the nillability of these to `false`:

- `cb_ext:ChildICWAEligibilityCode`
- `cb_ext:HomeStudyCategoryCode`
- Elements of `cb_ext:PlacementType`
 - `cb_ext:InitialPlacement`
 - `cb_ext:IntendedPlacement`
 - `cb_ext:ChangePlacement`

Definition Changes

While none of these changes will affect implementation, some of these are required for conformance. All elements and types are required to have definitions and some definitions are required to be in a particular format.

Added minimal definitions to the following:

- `cb_ext:ChangePlacement`
- `cb_ext:CourtOrderAttachmentIndicator`
- `cb_ext:SendingStateCompactSignatory`
- `cb_ext:SendingAgencySignatory`
- `cb_ext:NEICEDocumentCode`
- `cb_ext:NEICEDocumentCodeOtherText`
- `cb_ext:HomeStudyResponseAttachment`

- `cb_ext:SendingAgencySignatorySignedDate`
- `cb_ext:SendingStateSignatorySignedDate`
- `cb_ext:InitialPlacement`
- `cb_ext:NEICEAttachmentType`

Changed the following definitions to match format requirements and fix typos:

- Changed type `cb_ext:PlacementInvolvedEntityLocationAssociationType` definition from "A data structure that associates a placement resource, which could be an organization or a person, to a location" to "A data structure that associates a placement resource, which could be an organization or a person, to a location"
- Globally replaced "A data structure..." with "A data type for a structure..." in all type definitions.
- Changed element `cb_ext:ChildICWAEligibilityIndicator` definition from "Indicates if the child is ICWA eligible" to "True if the child is ICWA eligible; false otherwise"
 - Changed element `cb_ext:PlacementAdptionIndicator` definition from "Indicates if the intended placement would be an adoption" to "True if the intended placement would be an adoption; false otherwise"
 - Added definition for type `cb_ext:NEICEDocumentAugmentationType`.
 - Changed element `cb_ext:PlacementAdoptionIVESubsidyIndicator` definition from "Indicates if the placement qualifies for Title IV-E subsidy" to "True if the placement qualifies for Title IV-E subsidy; false otherwise" (**Later removed in favor of a small code table.**)
 - Changed element `cb_ext:PlacementByPriorityIndicator` definition from "Indicates of the intended placement is by priority" to "True if the intended placement is by priority; false otherwise"
 - Changed element `cb_ext:PlacementChangeIndicator` definition from "Indicates if the intended placement is a change to a prior attempt" to "True if the intended placement is a change to a prior attempt; false otherwise"
 - Changed element `cb_ext:PlacementDecisionConcurrenceIndicator` definition from "Indicates if the receiving state concurs with the placement decision" to "True if the receiving state concurs with the placement decision; false otherwise"
 - Changed element `cb_ext:PlacementInitialIndicator` definition from "Indicates if this is an initial placement" to "True if this is an initial placement; false otherwise"
 - Changed element `cb_ext:PlacementUnderEmergencyConditionsIndicator` definition from "Indicates if the placement is being performed under emergency conditions" to "True if the placement is being performed under emergency conditions; false otherwise"
 - Changed type `cb_ext:PlacementActivityPlacementResourceAssociationType` definition from "A data stucture to describe the association between a PlacementActivity and PlacementResource" to "A data type for a structure to describe the association between a PlacementActivity and PlacementResource".

- Changed type `cb_ext:PlacementDecisionResponseType` definition from "A data type for a structure that describes a receiving state's concurrence or disagreement with the placement decision. The receiving state can add an explanation or attach document to support its observations" to "A data type for a structure that describes a receiving state's concurrence or disagreement with the placement decision. The receiving state can add an explanation or attach documents to support its observations"
- Changed type `cb_ext:ResourceDetailType` definition from "A data type for a structure that describes a of a Resource details" to "A data type for a structure that describes the details of a Resource"
- Changed type `cb_ext:CaseNEICEIdentification` definition from "Identifier for the case within the NEICE ICPC exchange. The ID is unqie for a Home Study Request sent for a child (or children) with a placement resource and this need not match any state identification for the case" to "Identifier for the case within the NEICE ICPC exchange. The ID is unique for a Home Study Request sent for a child (or children) with a placement resource and this need not match any state identification for the case".
- Changed element `cb_ext:PlacementActivityPlacementOrganizationAssociation` definition from "Assciation between a placement and the organization performing the placement task" to "Association between a placement and the organization performing the placement task".
- Changed element `cb_ext:PlacementResourceID` definition from "An identifier for a palcement resource" to "An identifier for a placement resource"
- Changed element `cb_ext:ResponsiblePartyLocationAssociation` definition from "Assciation between the reponsible party and a location" to "Association between the responsible party and a location"
- Changed element `cb_ext:ReportPeriodicityCode` definition from "Requested reriodicity of a report" to "Requested periodicity of a report"
- Changed element `cb_ext:ReportPeriodicityOtherText` definition from "Requested reriodicity of a report, if not codified" to "Requested periodicity of a report, if not codified".
- Changed element `cb_ext:TransmittalCategoryCode` definition from "Category of the request in this trasnmittal" to "Category of the request in this transmittal".
- Globally removed hard newlines inside definitions. These never end up lining up the way you intended. It's better to have them on one line and let editors wrap them appropriately.
- Globally changed "followup" to "follow-up" in all definitions, but not in element names.
- Globally changed augmentations and date elements to match the required format
- Globally changed definitions starting with "The ..." to "A ... or "An ...".
- Changed type `cb_ext:LocationEntityAssociationType` definition from "A data type for a structure that creates an assoociation between an entity and its location" to "A data type for a structure that creates an association between an entity and its location".

- Changed type `cb_ext:FollowupReportType` definition from "A data type for a structure that encapsulates the information returned in an interstate follow-up report, this typically is in response to an follow-up request" to "A data type for a structure that encapsulates the information returned in an interstate follow-up report, this typically is in response to a follow-up request"
 - Changed element `cb_ext:RelativePlacementResourcesCode` definition to "A description of the Placement Resource's relationship to the child where the child is being placed."
-

Schema: `neice_exchange.xsd`

- Changed `cb_exch:NEICETransmittalDocumentType` definition from "A data structure that describes a common container for all messages flowing through the NEICE system between states' child welfare systems" to "A data type for a structure that describes a common container for all messages flowing through the NEICE system between states' child welfare systems".
-

WSDLs

- Fixed URIs to match latest version
 - Renamed `NEICECHUploadOuptut` to `NEICECHUploadOutput`
-

Unused Objects

The following objects were included in the extension schema, but unused in the actual exchange. They have all been removed.

Elements

The following elements are not included anywhere in the NEICE instance hierarchy. The elements are defined, but not inside of any type, thus have no way of appearing in an exchange:

- `cb_ext:HomeStudyRequestAttachment`
- `cb_ext:HomeStudyResponseAttachment`
- `cb_ext:IntendedPlacementResource`
- `cb_ext:NEICEDocument100aAttachment`
- `cb_ext:NEICEDocument100aAttachmentItemName`
 - `cb_code:NEICEDocument100aAttachmentItemCodeType`
 - `cb_code:NEICEDocument100aAttachmentItemCodeSimpleType`
- `cb_ext:NEICEDocument100aAttachmentItemOtherText`
- `cb_ext:NEICEPlacementResourceInformation`
 - `cb_ext:NEICEPlacementResourceInformationType`

- `cb_ext:PlacementResourceLocationAssociation`
 - `cb_ext:LocationEntityAssociationType`
 - `cb_ext:LocationEntityAssociationAugmentationPoint`
- `cb_ext:ResponsiblePartyLocationAssociation`
- `cb_ext:SupervisoryAgencyLocationAssociation`
- `cb_ext:PlacementActivityPlacementOrganizationAssociation`
- `cb_ext:PlacementActivityPlacementResourceAssociation`
 - `cb_ext:PlacementActivityPlacementResourceAssociationType`
- `cb_ext:PlacementChangeEffectiveDate`
- `cb_ext:PlacementChangeIndicator`
- `cb_ext:PlacementDecisionResponse`
 - `cb_ext:PlacementDecisionResponseType`
 - `cb_ext:PlacementDecisionConcurrenceIndicator`
 - `cb_ext:PlacementDecisionDemurText`
 - `cb_ext:PlacementDecisionDemurAttachment`
- `cb_ext:PlacementInitialDate`
- `cb_ext:PlacementInitialIndicator`
- `cb_ext:PlacementIntendedResource`
- `cb_ext:PlacementResourceContactInformation`
- `cb_ext:PlacementResourceContactInformationAssociation`
- `cb_ext:PlacementResourceLocation`
- `cb_ext:ProposedSupervisoryAgencyLocation`
- `cb_ext:RequestedService`
- `cb_ext:ResponsiblePartyContactInformation`
- `cb_ext:ResponsiblePartyLocation`

Types

The following types are not used. There are no elements of these types, thus have no way of appearing in an exchange:

- `cb_ext:NEICEAttachmentType`
- `cb_ext:PlacementInvolvedEntityLocationAssociationType`

- `cb_ext:PlacementInvolvedPersonLocationAssociation`
- `cb_ext:PlacementInvolvedOrganizationLocationAssociation`
